SUMMARY

Full Stack Developer with 3.5 years of hands-on experience in the MERN stack (MongoDB, Express.js, React.js, Node.js). Specialized in building scalable web applications, secure APIs, and performant UIs. Strong focus on clean code, real-world problem solving, and delivering impact in fast-paced environments.

PROFESSIONAL EXPERIENCE

Shairiti New Private Limited (CodeVyasa)

Software Engineer II

Noida, UP

Jul 2022 - Present

- Developed and scaled RESTful APIs enabling seamless frontend-backend communication and flexible business logic.
- Optimized backend performance by 25% through efficient database queries and middleware restructuring.
- Built a dynamic form system driven by database schemas, allowing real-time UI generation without code changes — reduced 90% of deployment efforts and manual code updates.
- Implemented end-to-end encryption, significantly improving application data security and compliance.

Conjoinix Total Solutions

Web Developer

Chandigarh

Sept 2021 – Jul 2022

- Designed and implemented a real-time vehicle tracking dashboard using the MERN stack.
- Integrated geolocation APIs and real-time socket updates for precise live tracking.
- Developed reusable, responsive components in ReactJs for internal operations and data visualization tools.
- Contributed to both frontend (React) and backend (Node.js) across multiple modules and client dashboards.

PROJECTS

Dealer Finance Exchange (DFX)

Mar 2023 - Present

- A web-based platform enabling corporations to issue and manage dealer loans securely via invoice verification.
- Streamlines the financing process by automating the loan approval and disbursement based on invoice verification, thereby improving supply chain efficiency and financial management for corporations.
- **Stack:** NodeJs, React, Redux, Bootstrap and MongoDB.

Aqualogica

Jul 2022 – Feb 2023

- An e-commerce platform dedicated to selling aqua-related products, providing a seamless and intuitive shopping experience.
- Included functionalities such as user authentication, product search and filtering, shopping cart, and order tracking to improve customer experience.
- **Stack:** Node.js, Express.js, Next.js, MongoDB and Redux.
